YOU WANT SOMETHING VERY SPECIAL

Oldenburger: the name that stands for the highest quality standards, efficient processes, intelligent planning tools, individual solutions, the most modern technology and hand-crafted perfection "made in Germany".

"We apply ourselves to our customers' commissions with extreme care and passion. As experienced specialists, we know that's the only way to achieve perfection."

Dierk Beutel | Managing Director

YOUR REQUIRE MENTS ARE OUR GOALS

Success based on experience! For over 60 years, the name Oldenburger has stood for the highest quality standards and exclusive solutions in the field of interiors.

We have a wealth of experience in the implementation of high-quality interior fittings for VIP jets. With hand-crafted perfection, creativity and the most modern technology, we realise the individual desires of our most discerning customers.

For us, high-quality work "made in Germany" represents both our promise and our goal. We have an excellent international reputation in the industry for good reason, since we apply ourselves to our customers' requirements with a passion for quality and precision. This is also underlined, for example, by our certification in accordance with the high standards of EN 9100:2009 as well as approval according to EASA Part 21 G.

Whether modernising a VVIP jet or constructing a new one, we carry out all the work according to your individual requirements and specifications. In doing so, we fit seamlessly in with your process specifications and implement your designs exactly. From our many years of experience, we can draw upon our expertise and know-how as well as our own processes and technical facilities, to be able to fulfil all the guidelines.

Oldenburger realises unusual requests for shapes, materials and surfaces. We ensure the optimal interaction of all components which ensures a perfect result. Naturally, all our work is completed on schedule.

PASSION MEETS PERFECTION

As longstanding, experienced experts in interiors for VVIP jets, we offer you perfection according to your specifications.

**WE
LOVE
WHAT
WE
DO**

Hand-crafted perfection and modern technical facilities with high-performance machinery guarantee efficient processes along our entire production chain.

Our range of services is specifically tailored to your wishes. We offer you engineering according to specification. 3D engineering allows precise planning and execution of our work. Plus, we always guarantee an accurate hand-crafted and documented pre-finished version.

We work exclusively with high-quality materials, such as the finest genuine wood veneers for the surfaces. The results are interior fittings which are as exclusive as they are extraordinary, and of which the functionality is convincing and the detail is delightful. We make luxury fly!

60 YEARS OF TRADITION

Success is our tradition. Here are the milestones in our evolution:

- 1953** Founded in Dinklage with production of our own furniture line
- 1970** Design furniture for some well-known German design brands
- 1985** Introduced retail interiors worldwide with the first boutique for Etienne Aigner
- 1988** First interiors for a cruise ship and, just one year later, the first super yacht
- 2002** First high tech and lightweight interiors for a privately owned luxury Boeing 747-400
- 2005** Expanded to China with our own German-managed production in Shanghai
- 2009** Founded three divisions under the Oldenburger name:
Shop Interior, Yacht Interior, Aircraft Interior
